

Accountant Overview - 2026 YTD

CONSEIL ET SOLUTION ENACT INC.

Generated 2026-07-18. Scope: corporate ledger through the current local records. This package is for CPA review and planning; it is not a tax filing, legal opinion, or payroll advice.

Identifier	Value
NEQ	1181862674
GST/HST / TPS-TVH	79848 4770 RT0001
QST / TVQ	1233599588 TQ0001
Corporate income tax file	1233599588 IC0001
Payroll status	No confirmed payroll account found in reviewed files

Executive brief

- Quebec incorporated solo IT consulting company with Procom as the main 2026 revenue stream.
- Main planning ask: determine sustainable monthly compensation and whether payments should be salary, dividends, shareholder-loan repayment/draw, reimbursements, or a mix.
- Current owner decision recorded on 2026-07-18: target 70,000 CAD gross salary for 2026; do not maximize RRSP/REER this year; treat the 8,000 CAD CELIAPP/FHSA transfer as a one-time savings event.
- Net recurring personal baseline after spouse rent contribution: \$2,777.99/month; gross before shared-housing offsets: \$3,677.99/month.
- Base planning target remains \$4,500-\$5,000/month net if adding breathing room, CELIAPP/FHSA, wedding savings, house down payment, RRSP, and emergency reserve.
- Personal-account data is used only as a compensation-planning summary; it is not mixed into the corporate ledger except specific business-paid-personally or owner-loan items.
- May/June personal spending includes non-recurring Bordeaux/France travel and Ring purchase spending; show separately, but do not annualize for recurring salary planning.
- The current \$8,000 CELIAPP/FHSA attempt is shown as failed/returned in the CSV and should be treated as pending until a cleared contribution appears.
- Sales taxes are treated as quarterly. The first March TPS/TVQ package was due 2026-04-30, driven mainly by the Procom receipt deposited 2026-04-10, and payment proofs are archived.

Current key ledger totals

Metric	Amount
Corporate RBC chequing balance	\$44,371.94
Revenue - Consultation	\$58,035.11
Expenses posted	\$2,082.65
GST/HST collected liability	-\$2,307.25
QST collected liability	-\$4,602.96
GST/HST ITCs receivable	\$5.47
QST ITRs receivable	\$10.87
Remaining GST/QST payable estimate	\$6,893.87
Current shareholder-loan balance	\$15,223.40
Regular owner withdrawals	\$16,000.00
All positive shareholder-loan movements	\$20,988.30
Pending unclassified transfers	\$4,000.00
Net recurring personal baseline	\$2,777.99/month after shared-housing offset
Actual personal cash consumed to date	\$15,069.58

Financial statements

Account	Balance
Actifs:Banque:RBC:Cheques	\$44,371.94

Passifs:TVQ-Percue	-\$4,602.96
Revenus:Consultation	-\$58,035.11

GST/QST filing and remittance

- The corporation files/remits sales taxes quarterly based on the current working records.
- For the first period ending 2026-03-31, the due/payment deadline was 2026-04-30.
- The tax amount to pay for that first period was mainly from the Procom payment received on 2026-04-10 for March services.
- The ledger preserves the bank evidence date currently shown in the RBC CSV: 2026-04-20 for both remittance withdrawals.
- Remaining GST/QST amounts below are ledger estimates for CPA review, not a submitted return.

Item	Amount / date	Notes
First quarterly period	2026-03-03 to 2026-03-31	Deadline: 2026-04-30.
Main March tax driver	\$11,129.58 on 2026-04-10	Procom PQ160679; sales tax was \$1,449.58.
TPS/GST remitted	\$592.87	RBC withdrawal evidence: 2026-04-20.
TVQ/QST remitted	\$1,182.77	RBC withdrawal evidence: 2026-04-20.
Combined first-period remittance	\$1,775.64	Cleared the documented March package.
Remaining TPS/GST estimate	\$2,301.78	Ledger estimate after first remittance.
Remaining TVQ/QST estimate	\$4,592.09	Ledger estimate after first remittance.
Remaining combined estimate	\$6,893.87	CPA to reconcile before next filing.

Corporate cash flow by month

Month	Receipts	Disbursements	Net cash flow
2026-03	\$3,651.08	\$2,750.00	\$901.08
2026-04	\$11,129.58	\$4,676.72	\$6,452.86
2026-05	\$20,867.96	\$1,540.73	\$19,327.23
2026-06	\$12,836.96	\$14,490.48	-\$1,653.52
2026-07	\$19,350.29	\$6.00	\$19,344.29

Shareholder loan

The current shareholder-loan balance in the ledger is **\$15,223.40**. Regular owner withdrawals total **\$16,000.00**. The difference exists because the shareholder-loan account also includes reimbursements, business expenses paid personally, personal deposits/returns, and personal items paid by the corporation.

Date	Description	Amount
2026-03-27	Remboursement partiel MacBook Pro - virement vers compte personnel RBC	\$2,000.00
2026-03-30	Remboursement final MacBook Pro - virement vers compte personnel RBC	\$750.00
2026-04-04	Retour partiel au compte personnel d'un depot errone	\$895.08
2026-04-17	Billet d'avion personnel paye avec carte corporative	\$1,343.22
2026-04-24	Virement vers compte personnel RBC	\$2,000.00
2026-06-18	Virement vers compte personnel RBC	\$2,000.00
2026-06-24	Virement vers compte personnel RBC	\$2,000.00
2026-06-24	Virement vers compte personnel RBC	\$4,000.00
2026-06-27	Virement vers compte personnel RBC	\$2,000.00
2026-06-29	Virement vers compte personnel RBC	\$2,000.00
2026-06-29	Virement vers compte personnel RBC	\$2,000.00

Pending classification

Pending/unresolved items total **\$4,000.00**, currently staged in ledger/pending.beancount as non-classified until CPA/owner confirmation.

- 2026-04-22 transfer to Hannah Diamong: \$2,000 - classification not confirmed.
- 2026-04-29 transfer to Hannah Diamong: \$2,000 - classification not confirmed.
- Do not classify these as expense, salary, dividend, shareholder loan, or reimbursement without support.

Personal cash-flow planning

- Gross recurring personal spending before shared-housing offsets: \$3,677.99/month.
- Shared housing contribution from spouse currently modeled as \$3,600.00 total across the four months reviewed, capped at \$900/month.
- Net recurring personal baseline after the shared-housing offset: \$2,777.99/month.
- Actual personal cash consumed to date after offset and including non-recurring Bordeaux/France/ring spending: \$15,069.58 (\$3,767.40/month over the reviewed period).
- Excluded from recurring planning: Bordeaux/France travel, travel restaurants and wine, ring purchase, pending/failed CELIAPP/FHSA transfer, large review transfers, and business capex.
- The personal CSVs are a planning input only; they are not corporate books.

Monthly personal spending structure

Month	Gross recurring	Housing offset	Net recurring
2026-03	\$4,012.81	\$900.00	\$3,112.81
2026-04	\$3,708.60	\$900.00	\$2,808.60
2026-05	\$3,443.25	\$900.00	\$2,543.25
2026-06	\$3,547.28	\$900.00	\$2,647.28

Recurring personal spending by category

Category	Gross	Offset	Net
Housing	\$7,100.00	\$3,600.00	\$3,500.00
Groceries and household	\$1,411.28	\$0.00	\$1,411.28
Other recurring personal	\$1,195.81	\$0.00	\$1,195.81
Alcohol, convenience, and discretionary	\$1,157.14	\$0.00	\$1,157.14
Restaurants and coffee	\$1,098.95	\$0.00	\$1,098.95
Clothing and gear	\$576.41	\$0.00	\$576.41
Insurance	\$511.12	\$0.00	\$511.12
Telecom, software, subscriptions	\$503.74	\$0.00	\$503.74
Transport	\$394.67	\$0.00	\$394.67
Groceries, pharmacy, and health	\$381.46	\$0.00	\$381.46
Utilities	\$324.56	\$0.00	\$324.56
Bank fees	\$56.80	\$0.00	\$56.80

Personal one-time items and exclusions

These items are excluded from the recurring salary baseline. Some still matter for cash planning, especially the pending CELIAPP/FHSA contribution, wedding savings, and reviewed transfers.

Reason	Amount	Planning treatment
Other personal inflows excluded from spend	\$22,175.88	Exclude from recurring salary baseline
Card-payment credits / duplicate transfers	\$15,715.11	Exclude from recurring salary baseline
Savings / investment attempt	\$8,000.00	Track as savings goal if it clears
Returned/failed payment	\$8,000.00	Not completed; do not count as contribution
Spouse/shared-housing inflows	\$5,750.00	Apply capped \$900/month housing offset
Personal e-transfers requiring review	\$4,983.16	Review before treating as personal spend
Bordeaux/France/Ring spending	\$3,957.64	Show separately; do not annualize
Business/capital items paid personally	\$2,750.00	Exclude from recurring salary baseline

CELIAPP/FHSA status

- The personal CSV currently shows an \$8,000 PLACEMENT IG transfer followed by an \$8,000 returned/failed payment.
- Treat the \$8,000 as pending until the transfer clears. If it clears, model it as a one-time savings/contribution requirement, not recurring living expense.
- Recurring lifestyle plus an \$8,000 CELIAPP/FHSA contribution implies about \$53,336/year gross salary using the repo payroll estimate.

Compensation scenarios for CPA review

Scenario	CPA questions
Base living-cost scenario	Gross up the mix for \$4,500-\$5,000/month net; respect payroll, tax, and cash.
House purchase next year	Assess higher T4 salary for mortgage docs, down payment, FHSA/RRSP/HBP.
RRSP maximization	Salary creates RRSP room; dividends generally do not. Quantify tradeoff.
Pay myself as little as possible	Find minimum withdrawals for living costs and shareholder-loan compliance.
Balanced retained-cash scenario	Cover personal needs while reserving GST/QST, income tax, CPA, equipment.
Wedding plan	August 20, 2027 wedding; \$20,000 target is about \$1,460/month from 2026-06-29.

Salary-equivalent planning estimates

These are planning estimates from the repo payroll model and must be confirmed by the CPA using official payroll setup, TD1/TP-1015 assumptions, remittance frequency, and year-to-date treatment.

Scenario	Net cash need	Gross salary estimate	Company cost estimate
Recurring lifestyle only	\$33,335.88/year	\$41,562.17/year	\$46,045.09/year
Recurring + pending \$8k CELIAPP/FHSA	\$41,335.88/year	\$53,336.27/year	\$59,141.55/year
Actual YTD spend annualized	\$45,208.80/year	\$59,366.19/year	\$65,848.77/year
Actual YTD + review transfers annualized	\$60,158.28/year	\$84,877.91/year	\$93,698.67/year
Recurring + wedding savings	\$50,853.84/year	\$69,175.73/year	\$76,755.25/year
\$4,500/month planning target	\$54,000.00/year	\$74,538.75/year	\$82,622.93/year
\$5,000/month planning target	\$60,000.00/year	\$84,612.45/year	\$93,413.97/year

Recorded 70,000 CAD salary roadmap

- Owner working decision recorded 2026-07-18: target 70,000 CAD gross salary for 2026.
- Repo payroll estimate: 70,000 CAD gross salary, 18,662.55 CAD employee deductions, 51,337.45 CAD net pay, 7,656.88 CAD employer payroll costs, and 77,656.88 CAD total company cost.
- If no 2026 salary has been formally posted yet and the target is caught up from July to December, use about 11,666.67 CAD gross salary per month. Estimated net pay is about 8,556.24 CAD/month and employer costs about 1,276.15 CAD/month.
- Actual monthly bank transfers should be confirmed by the CPA. If salary is used to clear existing shareholder-loan draws, apply net pay against Passifs:Pret-Actionnaire first and transfer only the excess cash to the personal account.
- RRSP/REER maximization is not a 2026 objective. The 8,000 CAD CELIAPP/FHSA transfer is a one-time savings event, not recurring monthly spending.

Using salary to clear shareholder-loan draws

If salary is used to clear amounts already drawn, the CPA should gross up salary, record payroll deductions and employer contributions, and apply the net pay against Passifs:Pret-Actionnaire instead of sending additional cash.

Loan/draw base	Net salary offset	Gross salary estimate	Employer costs	Company cost
Current shareholder-loan balance	\$15,223.40	\$14,478.75	\$1,440.92	\$15,919.67
Regular owner withdrawals	\$16,000.00	\$15,020.59	\$1,501.50	\$16,522.09
All positive shareholder-loan movements	\$20,988.30	\$20,643.87	\$2,133.30	\$22,777.17

Accountant action checklist

- Classify prior corporation-to-owner transfers and determine salary/dividend/shareholder-loan/reimbursement treatment.
- Confirm whether CRA payroll and Quebec source-deduction accounts must be opened before salary starts.
- Confirm whether existing shareholder-loan draws can be cleared by salary net pay offset and what gross-up/remittance dates apply.
- Confirm home-office rent and internet assumptions.
- Gross up the target monthly net pay using Quebec payroll deductions if salary is selected.
- Review the personal-spending tracker: spouse rent contribution, pending \$8,000 CELIAPP/FHSA transfer, wedding savings target, and reviewed e-transfers.
- Review GST/QST treatment, remittances, and remaining balances.
- Resolve pending Hannah transfers and any missing supporting documents.
- Advise which scenario best matches mortgage, RRSP, tax, and retained-cash objectives.
